MATRIX42 MARKETPLACE PRODUCTS

CleanDatabase

Batch deletion of objects that match a given pattern.

Description

With the App **CleanDatabase** for administrators, it is possible to delete single or multiple objects of any configuration-item. The amount of objects to be deleted can be restricted on the basis of a where-clause. The delition of dependent files can also be set.

The tool is run as a standalone application.

For more options on delition also check Garbage Collector for Matrix42 Workspace Management.

The manual can be found here.
