Barcode Scanner Control

Labtagon Barcode Scanner Control is an extension for the Matrix42 Digital Workspace Management System which allows you to scan barcodes and QR-codes with an internal or external camera.

Description

Labtagon Barcode Scanner Control

is a extension for the Matrix42 Digital Workspace Management System. Due to the built in camera or an external one, you can easily and simply scan Barcodes-codes and QR-Codes – you don't even need a barcode scanner device.

This extension can be integrated in any dialogue.

If your device doesn't support camera utilization directly from your browser, you have the option to upload a picture of the barcode you want to scan. – Upload File – alternative method

This product is compatible with all current Matrix42 versions under maintenance and support.

That's new! The Labtagon Barcode Scanner Control can now also read QR codes! This merges the products barcode scanner and [QR code scanner](#). One product - more functions.

Features

The Labtagon Remote Label Print has the following features:

- Layout Designer allows the integration in any dialogue
- Configuration according to individual condition
- Alternative access to the File-Upload function on mobile devices
