Migration from DSM to Matrix42/Empirum made easy

Description

Migration from DSM to Matrix42 made easy.

IDERIMOVE

A migration comes along with a lot of effort. Moving a multi-application environment that has grown over the years to a different system is not an easy task... until now! Just take your DSM packages with you and continue using them in Matrix42/Empirum.

<https://www.iderimove.com/en.html>

Notice: The price indicated is per package.

Find out how we can make it easy:

- Easy export of packages
- No repackaging of old packages
- Use your DSM packages in Matrix42
- No need for double packaging while migrating

Your benefits:

- Continue to use existing know how
- Relief for your employees
- Higher ROI by automating workflows while migrating
- More time to focus on the essentials

3 easy steps:

- Contact marketplace@matrix42.com and get the tool "NIEnlyzer"
 - With the NIEnlyzer you can analyze your DSM environment. As a result you get a CSV-data that you can send back to Matrix42.
- We can analyze your data and you get information about:
 - how many packages and commands you use
 - which kind of packages and commands you use
 - how many packages can be migrated fully automatically
- Based on this determined number of packages you place your order. You will receive IDERI move for download to perform the migration in your environment.
