MATRIX42 MARKETPLACE PRODUCTS

# Matrix42 Software Asset Management Basics (English)

You will learn how to leverage and exploit the full potential of Matrix42 Software Asset Management. The training will be held in english. **Please note**: All English-language training courses are held during CET. If you would like to train in a different time zone, write to us at training@matrix42.com

## Description

### SAM Basic Training for Matrix42 Software Asset Management

#### Learning Objectives

Our 2-day product training will teach you how to leverage and exploit the full potential of Matrix42 Software Asset Management. You will learn how to adjust processes and rules optimally to your company's requirements and conditions. The goal is the effective usage of the system to gather, validate and interpret all data with minimum efforts. This will enable you to implement software asset management under consideration of your infrastructure and software vendors' requirements. (duration 2 days)

#### Target Groups

Business staff license management, SAM officers, IT license managers, IT controllers, business users/line managers from IT controlling/contract management or budget management, workspace management or IT administrators, ITSM process owners, Matrix42 partners

## Content

- SAM administration:
  - System configuration, objects and services
- SAM masterdata:
  - Organization within Matrix42 Software Asset Management
