Check List Control

The **Labtagon Check List Control** makes it easy to keep track of complex tasks.

Description

Labtagon Check List Control

The Labtagon Check List Control is an extension for Matrix42 products. It enables a checklist to be displayed in any configuration element.

Features

The Labtagon Check List Control has the following functions:

- Progress indicator for a quick overview of how many items on the list have already been completed
- Change the order of the individual elements
- Deleting the elements
- By checking an element, the text is crossed out and the progress indicator changes
- Can be used in all configuration elements such as ticket, quickcall, computer, person, etc.
- Can be used in previews or edit dialogues.

The installation package includes the following components:

- Easy installation via Windows setup and license protection
- Manual with detailed description of installation and configuration

Advantages

- Subdivision of complex tasks into sub-tasks in a checklist
- Overview of the processing status
- It's easy and fun to use

Use cases

- Select a quick call in the ticket. The elements contained in the Quickcall are copied into the ticket and can be used there directly.
- For the creation of a contract, you deposit a checklist to query tests such as general terms and conditions and confidentiality

Recommendations for the implementation of this product

Knowledge: Admin Basic and basic layout designer knowledge.

We recommend implementation by a Matrix42 partner or Labtagon. (Average duration approx. 1 day).
