MATRIX42 MARKETPLACE PRODUCTS

Extended Copy

Define actions to create copies of an object where specific attributes get preconfigured values.

Description

Extended Copy for Matrix42 Workspace Management

Extended Copy allows you as an administrator to define Actions that can copy any object to new objects conforming to a pre-defined template. You can freely specify which attributes you want to copy, whether you want to use prefixes, and whether there will be user interaction during copying.

Advantages are:

- Creating objects with meaningful attribute values
- Rapid creation of data that satisfy integrity criteria
- One implementation for numerous copying definitions

Sample objects that can be be copied are Roles, Users, Accounts etc.

Installation is done via the Matrix42 Extension Gallery.
The manual can be found here.
