M42 Environment Manager

Clone your TEST or DEVELOPMENT Matrix42 Software Asset & Service Management System based on Matrix42 PRODUCTION Environment using M42 Environment Manager.

Description

"M42 Environment Manager" is a stand-alone app for the Matrix42 Software Asset and Service Management Suite.

The app allows you to fully automatically transfer an entire production system into a test or development system. For example, you can synchronize the current status of system configurations and databases from a development system to a test system or vice versa. Extensive configuration options in the app allows to map a wide variety of customer environments and scenarios.
