

PRODUITS MATRIX42 MARKETPLACE

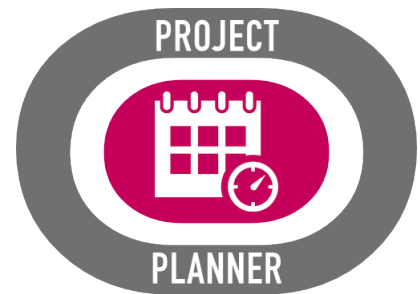

Project Planner

The ITSM add-on organizes and manages project schedules in Matrix42 Workspace Management.

This installation for up to the number of current Matrix42 licenses.

Description

The ITSM add-on organizes and manages project schedules in Matrix42 Workspace Management. Maintenance and management of tasks and schedules are done centrally and web-based via our project planning customizations.

Features:

- Centralized work at the project and work package level in the ticket system
- Effort estimates for tickets
- Project extracts from the WSM
- Work package editing (combining multiple tickets into one package)
- Calendar views
- Maintenance of dependencies
- Communication even without direct ticket system access

Technical requirements:

- Matrix42 Enterprise Service Management

(the versions supported in the standard)

- innomea WebAPI (provided free of charge for this innomea add-on)
